

JENNIFER BENTULAN

iOS Developer | AI-Powered Apps | Product Design

Loma Linda, CA | (951) 259-1328 | github.com/supahsushi

PROFESSIONAL SUMMARY

iOS developer shipping products independently. Built two live applications on the App Store: Love Always AI (AI companion) and Neuro Venture: ADHD Focus (gamified habit tracker). Comfortable across the full stack—from backend APIs and cloud infrastructure to native iOS code and product design. Focus on solving real problems with clean execution.

CORE SKILLS

Languages & Frameworks	Technical Expertise
- Swift, SwiftUI, UIKit - JavaScript / TypeScript - Python, React basics	- API integration (REST, LLM APIs) - App Store deployment & optimization - UI/UX design, branding, Adobe Creative Suite, Microsoft Office

PROFESSIONAL EXPERIENCE

Love Always AI — iOS Developer

Indie Published App | Feb 2026 – Present

- Shipped AI companion app on App Store with integrated backend (Render + Groq API); handles smart reminders, iCloud sync, and adaptive conversational context with zero data loss. Real traction: Apple Search Ads data shows 1,309 impressions, 38 taps, 25 installs (2.9% CTR, 65.8% conversion from tap-to-install). Maintains 4.6-star rating through bug fixes and iterative improvements.
- Built premium tier using StoreKit for monetization testing and feature gating. Integrated Google Custom Search and OpenWeather API for context-aware responses.
- Designed companion brand identity (logo, color palette, marketing copy) and pitched to Apple Editorial—accepted for Mental Health Awareness Month feature queue.

Neuro Venture: ADHD Focus — Full-Stack Developer

Indie Published App | Feb 2026 – Present

- Shipped RPG-style habit tracker on App Store targeting ADHD users. Validated initial product-market fit through Apple Search Ads: 93 impressions, 3 taps, 3 downloads (100% tap-to-install conversion).
- Implemented gamified mechanics (XP, level progression, daily streaks) and intelligent notifications to drive habit formation; integrated Core Data for offline sync and iOS Calendar for seamless scheduling.
- Architected full-stack infrastructure: SwiftUI UI, local data persistence, push notifications via APNs, and StoreKit integration for monetization testing.
- Open-sourced app on GitHub (supahsushi/RPGHabitTracker) for community contribution.

Moval Social Studios (SushiChamploo) — Founder & Creative Director

Indie Studio | 2023 – Present

- Unified personal brand across iOS apps, digital products, and freelance services; crafted cohesive visual identity (oni/samurai logo, neon color palette) that strengthens brand recall.
- Launched Upwork & Fiverr profiles offering AI photo enhancement, iOS consultation, and UI/UX design; secured initial contracts at \$50–80/hour billing.
- Manages personal Instagram (@sushi.champloo) focused on AI artwork and wellness content; 2,000+ engaged followers, 7–12% engagement rate on thematic posts.
- Created and sold ADHD Daily Planner digital template on Gumroad and Etsy; 45+ units sold in 90 days. Demonstrates ability to monetize complementary products outside core app development.

EDUCATION & CERTIFICATIONS

The Art Institute of California – Inland Empire

Bachelor of Science, Graduated 2010

Associate Degree in Graphic Design, Graduated 2012

Google Certifications:

- Introduction to AI (Completed Aug 2025)
- Foundations of UX Design (Completed Sept 2025)

NOTABLE ACHIEVEMENTS

- Shipped 2 production iOS apps on App Store with zero major crashes or data loss.
- Shipped with premium tier unlocked through in-app purchases; optimized onboarding and UX based on user feedback.
- Built full-stack infrastructure (backend, API, cloud deployment) independently without iOS-only scope creep.
- Created and monetized complementary digital products (Notion templates) adjacent to core apps; diversified revenue streams.

TOOLS & PLATFORMS

Xcode, SwiftUI, iOS SDK, Render, Groq API, ComfyUI, Notion, Gumroad, GitHub, Upwork, Fiverr, App Store Connect, Google Analytics, Firebase, iCloud, CloudKit, StoreKit, Adobe Creative Suite, Microsoft Office
